

The Genome, The Bleed and The Clot

Past, Present, and Future News from the ISGC
Issue 5 – Nov 15th, 2023

What's in the news?

Highlights of the 29th ISGC Workshop in Boston

- The presence of our host, Natalia Rost, was truly missed, but the team, especially Patricia Mussolino, Gina Magliozzi, Danaira Moradel, and Markus Schirmer did a wonderful job! Congrats on a successful meeting!
- Top keynote speakers! Exciting examples of translational research in cardiovascular and rare diseases. CRISPR editing, PRS clinical applications and a lot more!
- New initiatives: iCDKP platform
- Sex specific studies, hot topic is coming!
- Detailed phenotyping is key to comprehensive results.

Stroke Genomics: Decoding the Future of Interventions

Single Nucleotide Polymorphisms Associated With Motor Recovery in Patients With Nondisabling Stroke: GWAS Study – Chad M Aldridge *et al.*
